Summary

Experienced Software Engineer with a strong track record in developing and deploying large-scale, **enterprise-level** solutions. Skilled across all phases of the SDLC, including Agile, CI/CD, and scalable architecture. Played a key role in delivering full-cycle applications for **major corporate clients**, participating in **UAT** with stakeholders and supporting **post-deployment** through L1 support, incident handling, sanity checks, SLA-driven tasks, resolve issues and planned maintenance. Also experienced in Fiverr freelance projects, maintaining excellent ratings through quality delivery and communication. Technically sound in full-stack development using modern frameworks and CMS platforms.
