SUMMARY

Software Engineer with 2+ years of experience on enterprise web applications and live production systems. Skilled in backend development, RESTful API integration, OOP and Agile workflows using PHP and Laravel. Currently working on a flight booking platform that integrates third-party APIs including Sabre, Amadeus and Verteil.

TECHNICAL SKILLS

Languages	PHP, JavaScript, Python, Java, SQL
Technologies	Laravel, CodeIgniter, HTML, CSS, Bootstrap, jQuery, AJAX
Core concepts	OOP, SOLID principles, Design Patterns, Data Structures & Algorithms
APIs & Databases	REST APIs, JSON, OAuth, MySQL
Tools	Git, Docker, CI/CD, Composer, Postman, Linux (Ubuntu)

EXPERIENCE

Software Engineer — Air Valencia Ltd. May 2026 – Present

- Developing backend features and integrating third-party flight booking APIs (Sabre, Amadeus, Verteil NDC) for flight search, fare retrieval, booking, ticketing, baggage and passenger management.
- Backend development, API integrations, debugging and production support for a high-availability travel system with B2C, B2B agent and central admin panels.

Software Engineer — Timestec IT Solutions Apr 2025 – Apr 2026

- Implemented backend features, REST APIs and bug fixes for production systems using Laravel and CodeIgniter.
- School Management System (biometric attendance, billing, SMS) and Real Estate Management System.
- Took part in deployment support and UAT processes.

Jr. Software Engineer — Arena Phone BD Ltd. Jul 2024 – Mar 2025

- Contributed to an enterprise Vehicle Management System used by 11,000+ employees.
- Real-time SMS attendance and notification features; feature enhancement, debugging and deployment.

PROJECTS

- **B2B & B2C Flight Booking System**: multi-supplier flight engine with real-time search, pricing and ticketing.
- **Vehicle Management System**: requisition, allocation and driver workflows for 11,000+ employees.
- **School Management System**: used by 40+ institutions; biometric attendance, billing and SMS.
- **Real Estate Management System**: property listings, bookings and customer management.

EDUCATION

B.Sc. in Computer Science & Engineering — Daffodil International University 2019 – 2023

Thesis: Decentralized Social Network Using Blockchain

PUBLICATIONS & LANGUAGES

Co-author of 3 journal articles (2024) on AI for cardiovascular disease detection, blockchain security in banking, and IoT for precision agriculture.

Bangla (native), English (IELTS 6.5).
